

## Stretch the speed envelope

ViewSonic breaks the boundaries of performance time and time again. The VX922 19" LCD sets a new benchmark standard with an industry-leading 2ms video response time. The VX922 delivers incredible speed for smooth broadcast-quality full motion video. Combined with ultra-high brightness and contrast levels delivered through ViewSonic's innovative Dynamic Structure™ and Amplified Impulse™ technologies, blurs and ghosts are replaced with pure, vibrant images. This kind of video performance is especially beneficial for graphic intensive applications like high-speed games and videos. Optisync® technology further enhances the display's appeal with both digital (DVI) and analogue (VGA) connections. And the eye-catching slim-bezel design means the stylish VX922 is the ultimate combination or form and function.

It's not just an ultra-fast LCD. It's a ViewSonic.

## NO BLURS. NO GHOSTS. CRYSTAL-CLEAR VIDEO.

- > ClearMotiv™ 2ms video response time
  XTREME 2ms video response time enables digital broadcast-quality full
  motion video.
- > Amplified Impulse™ technology

  Enhanced video performance ensures that blurs and ghosting are banished. See the difference in graphic intensive applications so that high-speed games and videos are really brought to life.
- > Ultra-high brightness and contrast 270 cd/m² brightness and 650:1 contrast levels deliver rich, crisp, detailed images.
- > Optisync® digital/analogue inputs expand your connectivity Multi-mode input technology supports both digital (DVI-D) and analogue (VGA) signals for the ultimate in compatibility and configuration flexibility.
- > XtremeView® ultra-wide viewing angles extend your view
  Up to 160° viewing angles provide enhanced images from all directions.
- Stylish slim-bezel design Slim-bezel design ensures that the VX922 looks good no matter if it's on or off.
- > Full 19" viewable with 1280 x 1024 resolution
